**K-Drive**

## **Abstract**

### **K-Drive**

Which is short for Krishnanand-Drive is a personal website with public access to all the project works done by Krishnanand A. This platform showcases all the works, the users get access to the repositories, inspect codes, and download the repositories from this website. This website also consists of a comment form where users can share their comments and suggestions for each repository. The whole website is designed accordingly for user friendly interactions and better user experience.

Getting Started with Create React App

This project was bootstrapped with Create React App.

Available scripts

This project was bootstrapped with Create React App.

npm start

Runs the app in the development mode. Open http://localhost:3000 to view it in your browser. The page will reload when you make changes. You may also see any lint errors in the console.

npm test

Launches the test runner in the interactive watch mode. See the section about running tests
